

Request for Proposals

Common Use Lounge Concession Lease and Operating Agreement #26-49-9999-018

Addendum No. 1

DATE OF ADDENDUM: October 8, 2026

The following changes, additions, and/or deletions are considered as Addendum No. 1, and are hereby made a part of the contract documents. All submitters are required to base their proposal upon the information furnished in this addendum; and as required in the contract documents. The Proposer is required to acknowledge Addendum No. 1 in their company proposal. Failure to acknowledge addendum on the proposal form will result in the proposal being declared non-responsive.

-
- A. The Proposal submission due date scheduled for Thursday, October 29, 2026 at 3:00 PM PST has not changed.
 - B. Attached are the following documents as part of Addendum No. 1
 - 1. Pre-Proposal Conference Attendees
 - 2. Pre-Proposal Conference Slides
 - 3. Sample Flight Schedule
 - 4. Diagram of C Concourse
 - 5. Historical & Projected Passenger Activity at a Glance
 - C. Questions received by Thursday, October 1, 2026:
 - 1. Do you have a more in-depth diagram of the Lounge space you can provide?
 - i. Yes. CAD Drawings were provided on September 22, 2026 to attendees of the Pre-Proposal Conference.
 - 2. Is the support space directly under the Lounge?
 - i. Yes.
 - 3. What is the estimated completion date for the TREX project?

- i. Phase 2 of TREX (Central Hall Project) is expected to open to passengers in June 2030.
- 4. Can we see the location where deliveries will be received, as well as the location of the trash receptacles?
 - i. Pre-Proposal Conference attendees were shown the loading dock and trash receptacles during the facility tour. Please see attached diagram.
- 5. Could you provide a typical flight schedule?
 - i. Typical flight schedules were made available to Pre-Proposal Conference attendees during the conference. Please see attached sample flight schedule.
- 6. When does the Board anticipate receiving its ACDBE participation percentage from the FAA?
 - i. The Board expects to receive their ACDBE participation percentage in mid-2027.
- 7. If utilities are tenant's responsibilities, what are the estimated costs for units of this size for water and electric annually?
 - i. The estimated costs for water and electric are currently unknown.
- 8. Who is the network provider for Cable? Is this a shared service or individual?
 - i. Cable is an individual service and will be the responsibility of the selected proposer.
- 9. Can the Airport confirm the exact rentable area of the approximately 1,860-square-foot lounge premises and provide a dimensioned lease outline drawing that identifies the lease line, storefront limits, columns, shafts, egress paths, and any areas excluded from rentable square footage?
 - i. The exact rentable area is 1,860 square feet which is outlined in the Lease Outline Drawing as provided in the RFP and sample Lease Agreement, which includes lease line, storefront limits, and columns. There are currently no shafts, and the egress path is dependent on the selected proposer's design.
- 10. Is the Airport able to provide the most current architectural, structural, mechanical, electrical, plumbing, fire protection, and life-safety as-built drawings available for the lounge premises, the floor below, and the roof area above or serving the premises, together with any available CAD files?
 - i. CAD Drawings were provided on September 22, 2026, to attendees of the Pre-Proposal Conference.
- 11. In what condition will the Airport deliver the premises to the selected proposer, including existing improvements to remain, demolition to be

completed by the Airport, and any base-building work planned before tenant turnover?

- i. The Board will deliver the premises in its as-is, where-is shell condition. There are no existing improvements to remain, no demolition to be completed, nor any base-building work planned. The space is ready for tenant turnover.

12. Would the Airport conduct a joint pre-turnover survey and provide a mutually agreed premises acceptance or deficiency list before the selected proposer accepts the space?

- i. The Board will deliver the premises in its as-is, where-is shell condition.

13. Can the Airport identify any hazardous materials, including asbestos-containing or presumed asbestos-containing materials, known or suspected within or immediately adjacent to the premises, and provide any available surveys or reports?

- i. Construction of the lounge space was completed in 2026. There are no known or suspected hazardous materials.

14. Will the potential Class 2 support space shown in Exhibit A be allocated to the selected proposer? If so, can the Airport confirm its exact size, location, condition, permitted uses, access route, utility availability, and anticipated availability date?

- i. The Class 2 support space could be allocated to the selected proposer at the proposer's option. The space is 507 square feet, and the grease interceptor room is 126 square feet, for a total of 633 square feet. The support space is located directly below the lounge space. The support space is new construction. Permitted uses are storage, office space, break room, kitchen space, and any other uses that would support lounge operations. Access route is via either passenger or freight elevator, all utilities are available and space is available immediately.

15. Can the Airport identify the approved loading dock, service entrance, service elevator, delivery route, waste route, and grease/oil handling route for daily lounge operations and construction activities?

- i. See attached diagram of the C Concourse.

16. Is the elevator serving the lounge and support space rated and approved for recurring food, beverage, equipment, refuse, and construction deliveries? If not, what alternative route will be required?

- i. There is a passenger elevator as well as a freight elevator available between the lounge and support space.

17. What limitations apply to delivery hours, vehicle size, dock dwell time, security screening, escorting, or storage of deliveries that should be reflected in the operating plan and financial proposal?
- i. Delivery hours could be almost any time of the day. The loading dock can fit a semi-trailer and is a common-use dock. Dwell times are dependent on needs of other vendor(s) and/or concessionaire(s). The selected proposer will need to develop a TSA approved plan for the screening, escorting and storage of deliveries.
18. Does the Airport provide refuse, recycling, compost, used cooking oil, and grease waste services, or must the operator contract for them separately? Can the Airport also identify any applicable fees or required vendors?
- i. The Board provides refuse and recycling. Operator must contract for oil and grease waste removal services. The Board has no additional fees or required vendor.
19. Can the Airport provide the available electrical service capacity for the lounge and support space, including voltage, phase, amperage, panel locations, spare capacity, emergency power availability, and the point of connection? Is the available service sufficient to support the proposed premium food-and-beverage program?
- i. The Board will provide the selected proposer with the requested information. It is believed that the available service is sufficient to support a premium food-and-beverage program. The lounge space and support space are both newly constructed.
20. Which electrical, water, sewer, gas, data, and other utilities will be separately metered, where will the meters be located, and what rates or allocation methodology will apply to each utility?
- i. Electrical, water, sewer, and gas will be separately metered. It is the tenant's responsibility to install the meters. The rates are set by the utility providers.
21. Is the Airport able to identify the domestic cold-water point of connection, available line size, static and residual water pressure, and available flow? If pressure is insufficient for the proposed food-and-beverage program, who will be responsible for any required booster-pump solution?
- i. The Board will provide the selected proposer with the requested information. It is believed that the available service is sufficient to support a premium food-and-beverage program. The lounge space and support space are both newly constructed.

22. Can the Airport identify the sanitary waste and vent connection locations, invert elevations, line sizes, capacities, and any restrictions on floor penetrations or routing through the level below?
- i. The Board will provide the selected proposer with the requested information. It is believed that the available service is sufficient to support a premium food-and-beverage program. The lounge space and support space are both newly constructed.
23. What is the location, size, capacity, and current condition of the grease waste stub and any central grease interceptor serving the premises? Will the Airport or the selected proposer be responsible for additional lines, equipment, maintenance, and pumping?
- i. The location of the grease waste interceptor is identified in Exhibit A – Premises in the draft Concession Lease and Operating Agreement. The selected proposer will be responsible for additional lines, equipment, maintenance, and pumping.
24. What base-building HVAC service is available to the premises, including conditioned outside air, chilled- and hot-water availability, maximum flow rates, existing equipment to remain, and any limitations on supplemental direct-expansion (DX) cooling?
- i. Please refer to the Tenant Design Guidelines which are attached to the sample Concession Lease and Operating Agreement.
25. Can the Airport confirm the permitted locations and approval requirements for kitchen exhaust, make-up air, refrigeration compressors, rooftop equipment, louvers, and roof or exterior-wall penetrations, and identify any structural, warranty-protected, or otherwise restricted zones?
- i. The Board will review any plans for kitchen exhaust, make-up air, refrigeration compressors, rooftop equipment, louvers, and roof or exterior-wall penetrations.
26. What existing fire alarm, sprinkler, emergency lighting, and emergency-power infrastructure serves the premises, including connection points, available capacity, required modifications, and any Airport-mandated vendors?
- i. The Fire Alarm System at the Airport, is installed, operated and maintained by the Board in common areas such as the concourse. The selected proposer is responsible for installation and maintenance of fire alarm systems inside the premises. The tenant system must be connected to the Airport's Fire Alarm system. The Airport-mandated vendor is Johnson Controls Simplex.

27. Can the Airport confirm the design occupant load and required egress capacity for the premises and identify any base-building egress improvements it will complete before turnover?
- i. The design occupant load will be determined by the Spokane Fire Department. No base-building egress improvements will be completed prior to turnover.
28. Will the Airport provide telecom conduit to the premises, and what pathways are available for internet, telephone, cellular DAS, security, access control, and other low-voltage services?
- i. There is conduit in the space and pathways exist. Installation of internet, telephone, cellular DAS, security, access control, and other low-voltage services will need to be done in coordination with Spokane Airports IT staff.
29. Is the Airport able to provide a current structural or coring plan for the lounge premises identifying areas where slab penetrations and core drilling are permitted, prohibited, or subject to special review? Can the plan identify post-tensioning, structural members, embedded utilities, security or operationally sensitive areas, occupied spaces below, and any other protected or restricted zones? What scanning, engineering, permitting, coordination, and Airport approval process will apply to proposed penetrations?
- i. No slab penetrations currently exist. Proposed slab penetrations will need to be approved by the Board.
30. Can the Airport provide the anticipated review durations for concept design, design development, construction documents, signage, food-service plans, fire protection plans, and other Airport approvals, together with typical City of Spokane permitting and inspection durations?
- i. Generally, design review by the Board is not less than fourteen (14) days. Typical City of Spokane permitting and review could take eight (8) weeks.
31. Which Airport-mandated or proprietary vendors must be used for fire alarm, fire suppression, security, access control, CCTV, telecom, DAS, signage, roofing, controls, testing, or other specialty systems?
- i. Please refer to the Tenant Design Guidelines which are attached to the sample Concession Lease and Operating Agreement.
32. What normal and restricted construction work hours will apply, including requirements for noisy work, demolition, core drilling, utility shutdowns, large deliveries, and work affecting common areas?

- i. All noisy work, demolition, core drilling, utility shutdowns, large deliveries, and work affecting common areas shall be done after the last scheduled flight departs from the C Concourse.
- 33. Is the Airport able to provide current badging fees, fingerprinting requirements, escort requirements, escort ratios, expected processing times, and any limits on the number of contractor badges available during construction?
 - i. Please contact the Credentialing Office at 509-824-7704 or credentialing@spokaneairports.net for current badging information. The Credentialing Office is open Monday through Friday, 7 a.m. to 5 p.m.
- 34. Can the Airport confirm the required construction security plan and tool-control requirements for work in the sterile area and indicate whether approved templates or minimum standards are available?
 - i. A Construction and Safety Security Plan (CSSP), including a Tool Control Plan for work in the Sterile Area, is required for all construction activities. The selected proposer's contractor must implement their own CSSP that meets local, state and federal requirements.
- 35. Are there any current or planned adjacent construction activities, Central Hall work, utility relocations, or operational constraints that could affect access, design, construction sequencing, opening, or ongoing lounge operations?
 - i. The Board does not expect any operational constraints that could affect access, design, construction sequencing, opening, or ongoing lounge operations.
- 36. Would the Airport consider advance enabling work or coordinated base-building work where it improves the schedule, avoids duplicative construction, or protects Airport systems?
 - i. All enabling work is complete.
- 37. What signage and wayfinding opportunities are available at the lounge entrance and elsewhere in the terminal, including blade signs, directional signs, digital wayfinding, and any restrictions on brand or access-program identification?
 - i. All signage must comply with the Tenant Design Guidelines which is attached to the sample Concession Lease and Operating Agreement.
- 38. Will rent begin on January 1, 2028, if the lounge cannot open because of Airport-controlled work, unavailable utility capacity, delayed Airport approvals, or incomplete access infrastructure? If so, would the Board consider rent abatement or a commencement extension for delays outside the selected proposer's control?

- i. The Board anticipates rent will begin on or before January 1, 2028. In the event of Airport-caused delays, the Board may consider a commencement extension on a case-by-case basis.
- 39. When does the Airport anticipate making the premises and any support space available for unrestricted design verification, construction mobilization, and completion of the selected proposer's improvements?
 - i. The premises and support space will be available immediately upon full execution of the Concession Lease and Operating Agreement.
- 40. Is the Minimum Annual Guarantee adjustment calculated annually as the greater of (i) 85% of the actual rent paid during the immediately preceding lease year or (ii) the original first-year MAG?
 - i. The Minimum Annual Guarantee will be adjusted annually to the greater of (1) previous Operations Year MAG, or (2) Eighty-five (85%) of the total rent owed by the Concessionaire during the previous Operations Year.
- 41. Can the selected proposer submit a tiered Percentage Concession Fee structure, with rates that vary by lease year and/or by annual revenue-volume thresholds? May different percentages also apply to distinct revenue categories, including memberships, pay-per-use visits, airline agreements, food and beverage sales, and other ancillary revenue?
 - i. Yes.
- 42. What rental rate will apply to the Class 2 support space, and what additional recurring charges will apply, including common-area, custodial, waste, security, utility, technology, maintenance, loading, or administrative fees not expressly included in the MAG or Percentage Concession Fee?
 - i. Class 2 rent for the support space is set forth in the Board-approved Rates and Charges. The Board-approved Rates and Charges are published annually at <https://www.spokaneairports.com>. Custodial charges for the leased space are the responsibility of the tenant.
- 43. Which costs will qualify toward the required minimum initial investment of \$500 per square foot, including design, engineering, permitting, construction management, furniture, fixtures, equipment, technology, signage, pre-opening costs, and work performed outside the lease line?
 - i. Design, engineering, and construction management costs shall not exceed twelve percent (12%) of the total cost of the minimum initial investment.

44. Is the 20% midterm refurbishment requirement measured against the required minimum initial investment or the operator's actual certified initial investment?
- i. The 20% midterm refurbishment requirement will be measured against the operator's actual certified initial investment. Design, engineering, and construction management costs shall not exceed twelve percent (12%) of the total cost.
45. Is the Airport able to provide historical annual enplanements and deplanements by concourse and airline for the most recent five years, together with available forecasts through the proposed ten-year lease term?
- i. Enplaned passenger by concourse data is included on page 8 of the Pre-Proposal Conference slides. Historical and forecasted enplaned passenger data is included herein.
46. Can the Airport provide current and forecast gate assignments by airline and concourse, including anticipated changes associated with the Central Hall and TREX program?
- i. The current concourse assignments are: Concourse A – Southwest Airlines; Concourse B – Delta Airlines and United Airlines; Concourse C – American Airlines, Alaska Airlines, Sun Country Airlines, and Allegiant Airlines. This is subject to change.
47. Will passengers departing from Concourses A and B be able to access the post-security lounge during the initial operating years and after completion of Central Hall? When is any sterile-side connection expected to become available?
- i. Passengers departing from Concourses A and B will be able to access the lounge prior to the opening of Central Hall. Central Hall is expected to open to passengers in 2030.
48. What is the Airport's current checkpoint opening schedule, first-departure and last-departure patterns, and seasonal operating-hour expectations to be used in establishing minimum lounge hours?
- i. Checkpoints open at least one (1) hour prior to the first scheduled departure for their respective concourses.
49. Are airline lounge-access agreements, corporate agreements, credit-card access programs, memberships, advance reservations, and walk-up paid access all permitted under the common-use requirement?
- i. Yes.
50. Can the Airport clarify whether the full-service bar requirement may be satisfied with beer and wine or must also include spirits, and identify the

applicable liquor licensing authority, anticipated licensing timeline, and any Airport-specific alcohol-service restrictions? Given the limited lounge footprint, would the Airport also consider a digital QR-code table-ordering model as an alternative or complement to a traditional full bar, allowing the selected proposer to deliver an elevated food-and-beverage experience while optimizing seating capacity and revenue potential?

- i. The full-service bar requirement must include beer, wine, spirits and non-alcoholic options. The liquor license authority is the Washington State Liquor and Cannabis Board and the timeline is dependent on the licensing board. There are no airport-specific alcohol restrictions. The Board would consider a digital QR-code table-ordering model.

51. Does the Airport anticipate any additional airline, financial-institution, or common-use lounges during the proposed lease term, including any planned lounge associated with Central Hall?

- i. No.

52. Can the Airport confirm the ACDBE participation goal applicable to this procurement? The RFP states that the Airport's ACDBE goal is under review, while Attachment #6 references 1%. Which goal controls, and how will participation be evaluated?

- i. Historically, the goal of the Board has been 1%. The Board expects to receive the ACDBE participation percentage in mid-2027.

53. Must the ACDBE Utilization Form identify firms at proposal submission, or may the proposer submit anticipated categories and update certified firm commitments after award?

- i. Proposers should complete Attachment #6 with any identified ACDBE firms it intends to utilize to meet the established ACDBE goal. If at the time of submission of proposals, the Proposer has not identified any ACDBE firms, the proposer should complete Attachment #6 and indicate that they have not identified any firms at the time and reflect an estimated dollar amount of zero.

54. Do the financial statements requested for sub-concessionaires and ACDBE entities apply to every proposed vendor and service provider, or only to entities that will be parties to the concession agreement or receive a defined sub-concession?

- i. The financial statements requested for sub-concessionaires and ACDBE entities only apply to entities that will be parties to the concession agreement or receive a defined sub-concession.

55. May confidential financial information be submitted in a separately sealed or separately labeled volume, and what procedure does the Board expect proposers to follow when identifying information believed exempt from public disclosure?
- i. If a request is made for disclosure of material or any portion that may be reasonably considered proprietary or confidential, the Board will determine whether the material should be disclosed or made available under the law. If the Board determines that the material is not exempt and may be disclosed, the Board will notify the Proposer of the request and allow the Proposer three (3) business days to take appropriate action pursuant to Chapter 42.56 RCW. If the Proposer fails or neglects to take such action within said period, the Board may release the portions of the Proposal deemed subject to disclosure.
56. Should exceptions to the draft agreement be presented as an issues list with proposed alternative language, a full redline, or both?
- i. An issues list with proposed alternative language and a full redline are preferred.
57. Should tax-inclusive or tax-exclusive revenues be used when calculating the Percentage Concession Fee, and what revenue exclusions will the Board permit?
- i. The Percentage Concession Fee will be based on Gross Revenues, as defined in Article 2(G) of the sample Concession Lease and Operating Agreement.
58. May the \$20,000 proposal guaranty be provided by electronic bond or another digital surety instrument, or must an original physical bond, certified cashier's check, or bank draft accompany the paper proposal?
- i. The Board will accept an electronic bond or another digital surety instrument that is submitted through the Nationwide Multi State Licensing System electronic surety bond portal.
59. Is a company-issued check an acceptable form of the \$20,000 proposal guaranty?
- i. The proposal guaranty must be a proposal bond, certified cashier's check, or bank draft payable to the Spokane Airport Board.
60. If a cashier's check is submitted for the proposal guaranty, what process and anticipated timing will apply to its return to unsuccessful proposers and, if applicable, to the selected proposer?

- i. The proposal guarantees for all proposers will be returned within ten (10) business days of execution of the Concession Lease and Operating Agreement by the Board and the selected proposer.
- 61. Can the Airport confirm the required format for the printed proposal, including the number of originals and copies, whether single- or double-sided printing is preferred, and whether the proposal should be bound? If binding is required, what binding method and packaging or labeling requirements will apply?
 - i. One (1) unbound original, and one (1) electronic file should be submitted. The Board encourages double-sided printing of the proposal documents.
- 62. In view of the scope of the requested clarifications and the time needed to incorporate the Airport's responses into a complete technical, commercial, and operational proposal, would the Board consider extending the proposal submission deadline? If so, what revised due date and time would apply?
 - i. At this time, the Board is not considering any extensions.

- ✈ Questions and Answers
- ✈ Facility Tour

Overview of Spokane International Airport

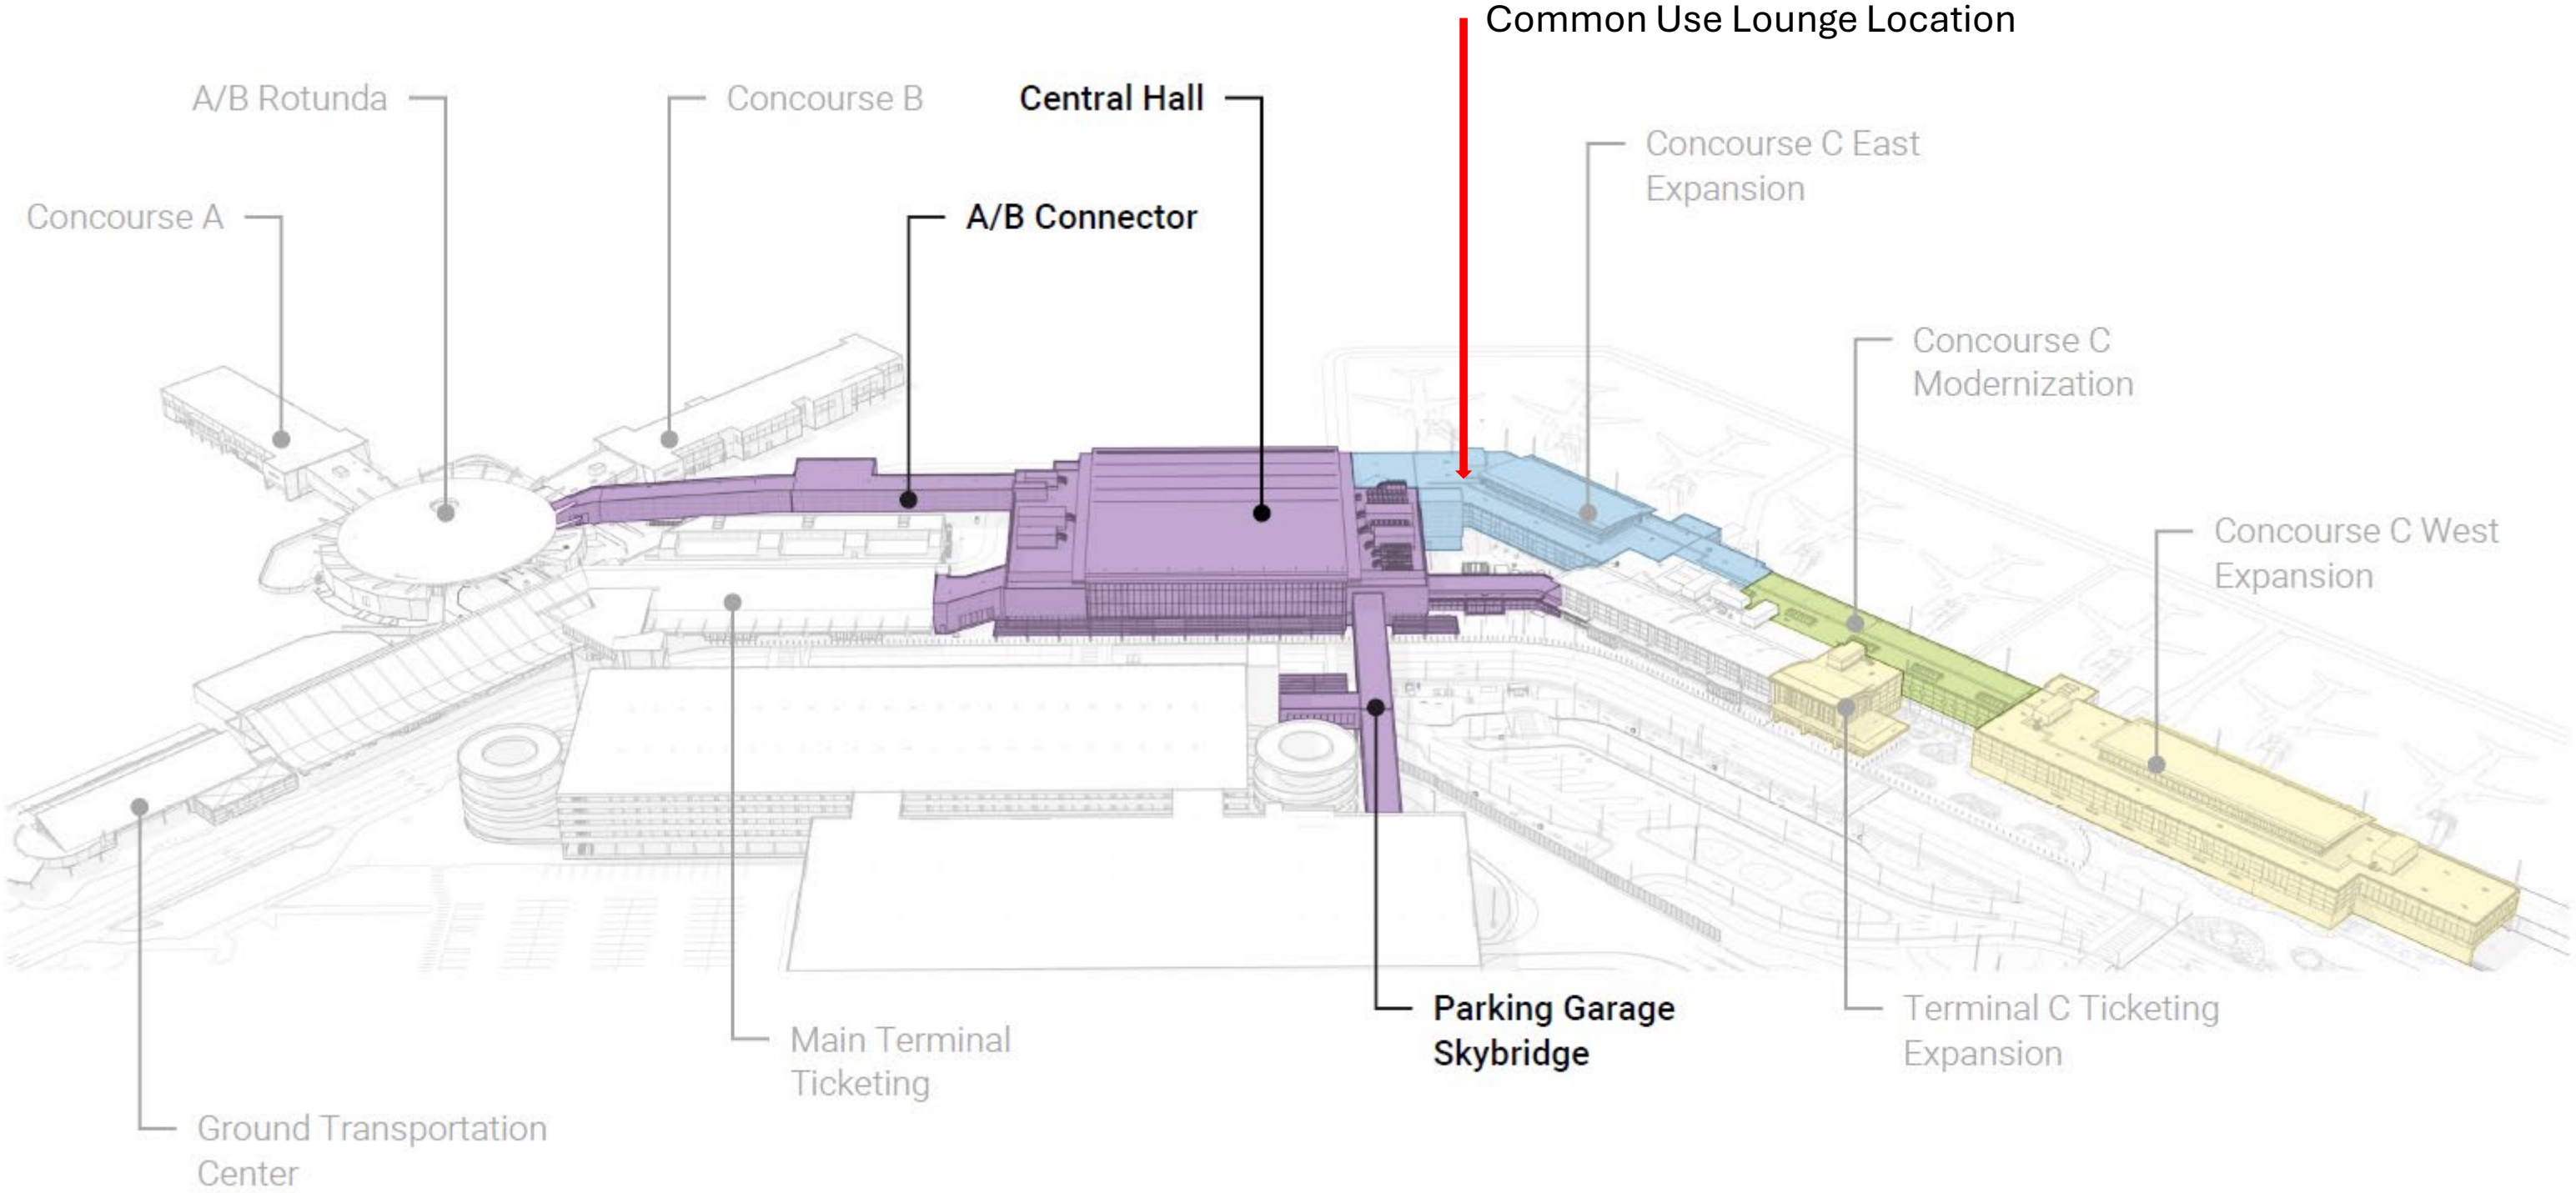

- ✈ Serves as the **gateway to the Inland Northwest**
- ✈ Second largest airport in the State of Washington
- ✈ Categorized by the FAA as a Small Hub
 - ✈ FAA Small Hub Criteria: Receives 0.05 to 0.25 percent of the annual U.S. commercial enplanements
- ✈ Operated by the Spokane Airport Board
- ✈ Located approximately 5 miles west of the city center
- ✈ Provides **nonstop service to 20+ U.S. destinations**
- ✈ Commercial air carriers offering service from the Airport include:

Terminal Renovation and Expansion (TREX) Program

- ✈ The goal of TREX is to expand and modernize the terminal to meet the needs of current and forecasted passenger traffic, and expand concourse accessibility
- ✈ TREX promotes economic development, enhances and encourages competitive air service, and upgrades passenger experience
- ✈ Concourse C Expansion Project was completed in June 2026
 - ✈ Replaced ground boarding gates with 6 passenger loading bridges, modernized existing gates and added 6 ticket counter locations for airlines to use
- ✈ Next phase of TREX is creation of a 255,000-square-foot Central Hall
 - ✈ Centralizes passenger screening/baggage claim and connects concourses A/B and C post security
 - ✈ Relocation of existing infrastructure/utilities along front curb began in May 2026
 - ✈ Central Hall expected to open to passengers in June 2030.

Spokane-Spokane Valley-Coeur d'Alene Key Characteristics

Spokane

- ➔ Second largest city in Washington and the largest in the Inland Northwest
- ➔ Home to many attractions, including several universities, outdoor adventures, unique shopping opportunities, and a vibrant food scene

Spokane Valley

- ➔ Largest suburb of Spokane
- ➔ Located between Spokane and Coeur d'Alene
- ➔ Known for its natural beauty

Coeur d'Alene

- ➔ Located in northwest Idaho (approximately a 45-minute drive from the Airport)
- ➔ Known as the playground of the Inland Northwest
- ➔ Boasts an abundance of recreational activities on and around Lake Coeur d'Alene

Concession Map

RFP Details – Communication Policy

- ✈ From the RFP issuance date until the award and execution of the Concession Lease, Proposers and affiliates **shall not communicate** with any Airport employee or Board member about the RFP, Proposal, or Proposal process except through the specified question-and-answer procedures
- ✈ **Questions or requests for clarification must be in writing and submitted during the question-and-answer period**
- ✈ Written responses will be provided by the Board
- ✈ Designated point of contact:

Ms. Amy L. Anderson, C.M.
Manager, Properties and Contracts
Spokane International Airport
9000 W. Airport Drive, #204
Spokane, WA 99224
Email: aanderson@spokaneairports.net

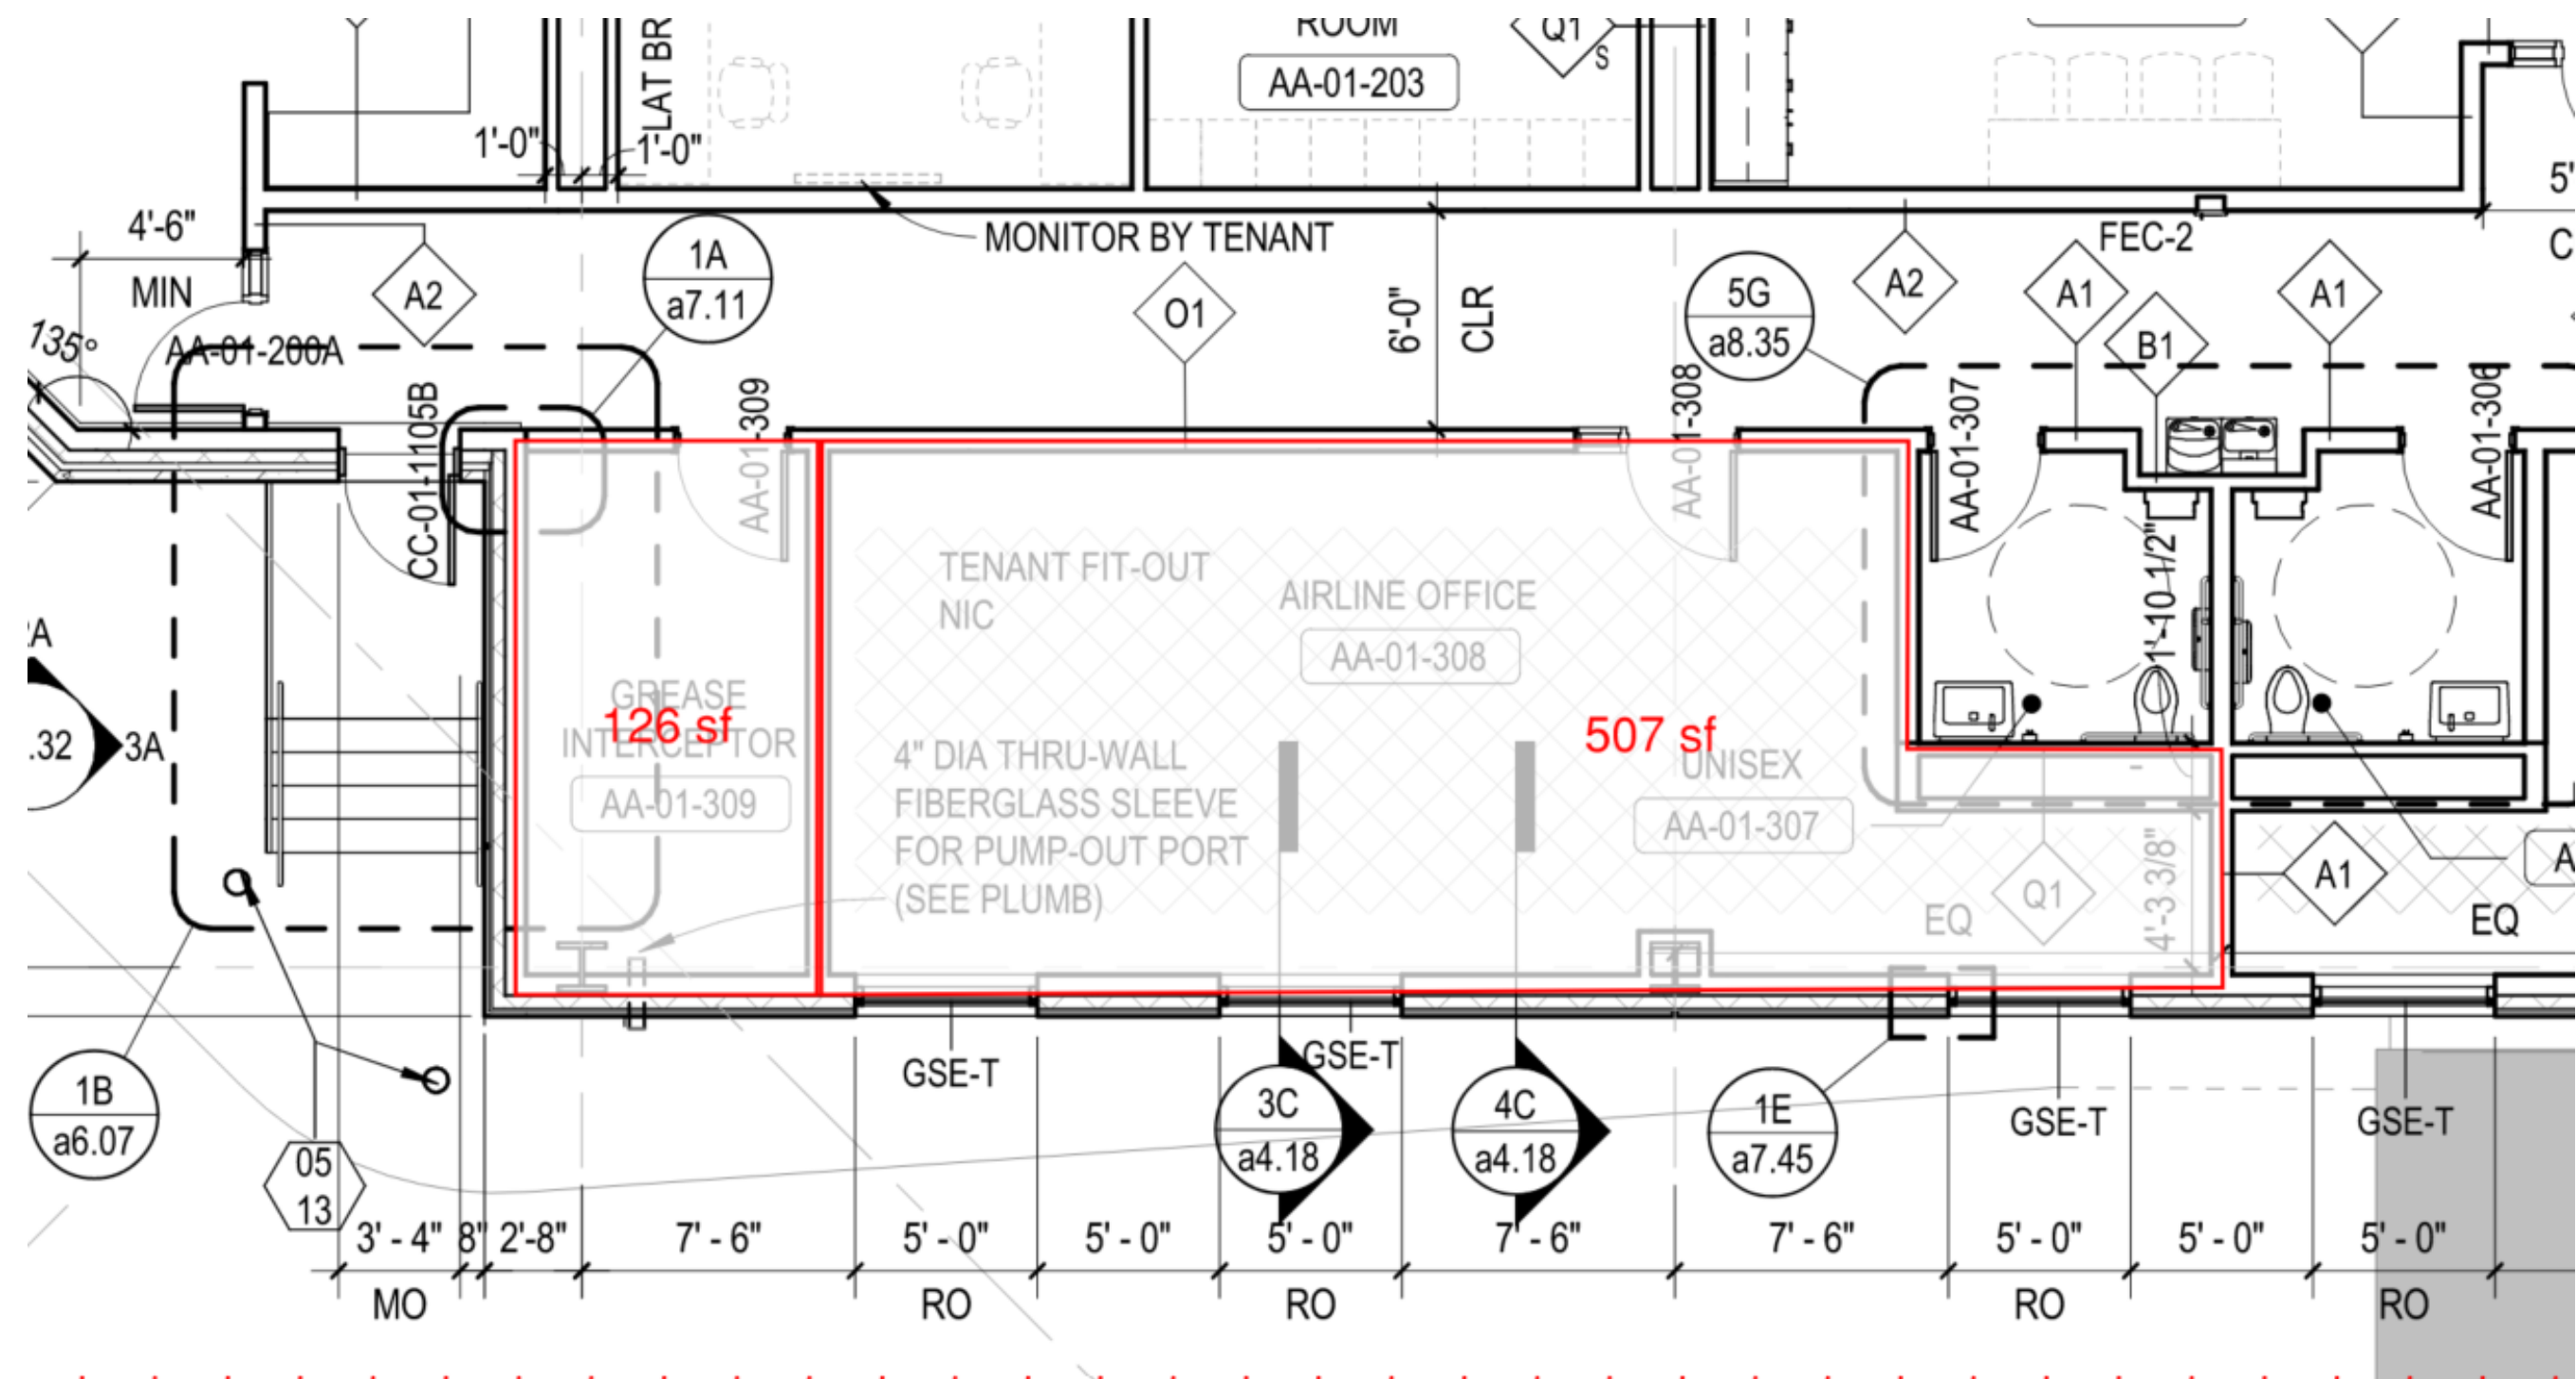

RFP Details – Minimum Qualifications

- ✈️ Minimum of **five (5) years prior experience** in the development and operation of a Common Use Lounge at commercial airports or other types of transportation centers
 - ✈️ This experience qualification may be met by the proposing entity, or if the proposer is a new business, the identified owner(s)
 - ✈️ Common Use Lounge operations must be of similar or larger size and scope to that planned for the Airport in terms of sales volume
- ✈️ If required by law, the successful Proposer must be **licensed to do business in the State of Washington** and must have a state Unified Business Identifier (UBI) number
- ✈️ Proposer **must not** be debarred, suspended, or otherwise ineligible to contract with the Board
- ✈️ Must be in **good standing with the Board** regarding prior Agreements and indebtedness

RFP Details – Location of Lounge

RFP Details – Location of Support Space

RFP Details – General Agreement Terms

- ✈ 10-year term commencing upon issuance of the Certificate of Occupancy by the City of Spokane (“Beneficial Occupancy”) or January 1, 2028, **whichever is sooner**
- ✈ Proposers are required to provide a financial offer which must include:
 - ✈ Percentage Concession Fee
 - ✈ Minimum Annual Guarantee
 - ✈ The Board is under no obligation to accept the highest financial offer
- ✈ Proposer shall pay a monthly rent for the Common Use Lounge space that is the **greater of** one twelfth (1/12) of the Minimum Annual Guarantee or the established Percentage Concession Fee
- ✈ Proposer shall pay monthly Class 2 rent for the support space, as set forth in the Board-approved Rates and Charges. The Board-approved Rates and Charges are published annually at <https://business.spokaneairports.net/financial-reports/>
- ✈ **Initial Minimum Investment** = \$500.00 per sq/ft of the leased premises on the concourse
- ✈ **Midterm Refurbishment** = not less than 20% of the Initial Minimum Investment

RFP Schedule

The following is the remaining schedule for this RFP process (which is subject to change):

Thursday, October 1, 2026, 3 PM PST - Deadline for Submission of Questions

Thursday, October 8, 2026, 4 PM PST - Earliest Anticipated Response by Airport to Questions and/or Addenda Posted

Thursday, October 29, 2026, 3 PM PST - Proposal Submission Deadline

Thursday, November 19, 2026, 4 PM PST - Targeted Board Action/Contract Award

Friday, November 20, 2026, 5 PM PST - Targeted Notification of Award

Questions and Answers

Request for Proposals – Common Use Lounge

Any further questions should be submitted in writing to:

Ms. Amy L. Anderson, C.M.
Manager, Properties and Contracts
Spokane International Airport

ABOUT SPOKANE INTERNATIONAL AIRPORT:

Spokane International Airport (airport code: GEG) is the second largest commercial service airport in the state of Washington, and an important gateway to the key markets and destinations across the Inland Northwest and British Columbia. The airport is served by seven major airlines and three cargo carriers, provides employment for over 3,000 people, and, in 2025, proudly welcomed a record total of 4,350,330 passengers and handled 60,153 tons of cargo. Spokane International Airport also generates approximately \$3 billion of annual economic impact across the Inland Northwest region — and does so without the use of taxpayer or City or County appropriated funds. For additional information, please visit www.spokaneairports.com.
